

APPLICATIONS

Eni FIN 332/F is a very adhesive black-coloured mineral-based lubricant suitable for lubrication of machinery exposed to the atmosphere.

Eni FIN 332/F has been developed, notably, for lubrication and protection of open gears, wire ropes, springs, guides, racks and open machinery parts in general, subjected to moderate mechanical loads and thermal stresses.

CUSTOMER ADVANTAGES

- Applicability in cold conditions thanks to diluent presence
- Good adhesiveness to lubricated metallic surfaces
- Strong resistance to water washout and to leakages under dynamic loads
- Outstanding oiliness properties for an effective and well diffused lubrication

SPECIFICATIONS & APPROVALS

- ISO L-CKH DIL
- DIN 51513 BC-V
